

JOVEL LABAY

Full-Stack JavaScript Developer | Web, Mobile & Product Engineering

Cagayan de Oro City, Philippines | +63 939 771 5303 | jovellabay@gmail.com

jovellabay.vercel.app | billouvent.com | motofactory.store

PROFESSIONAL SUMMARY

Full-Stack Developer with 5 years shipping production web and mobile products across fintech, real estate, and enterprise. Expert in **React.js**, **Next.js**, **React Native**, **Node.js**, **TypeScript**, and cloud deployment (Azure, AWS, GitHub Actions). Solo-built **Billouvent** (tablet POS, 5 merchant pilots) and **Moto Factory** (live PH e-commerce, 60+ products). Scaled enterprise systems to **2,000+ branches**. Strengths: end-to-end ownership, legacy modernization, and measurable product delivery.

CORE SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Headless CMS (WordPress, Sanity)

Mobile: React Native, Expo, iOS Widgets, SwiftUI integration, Sentry

Backend: Node.js, Express.js, Fastify, PHP, REST APIs, OAuth, PayMongo

Data & Cloud: MongoDB, MySQL, Firebase, Supabase, Google Sheets API, Azure, AWS EC2, GitHub Actions

Domains: E-commerce & local payments (QRPh, GCash, Maya, COD), POS / inventory, fintech, CRM

PRODUCTS BUILT (FOUNDER / SOLO ENGINEER)

Founder & Full-Stack Engineer | Billouvent — billouvent.com

2025 – Present

Serverless tablet POS for retail, café, and service shops (Android tablet & iPad).

- Built solo in 4 months; completed closed Android testing with **5 local merchants** using distributed builds in live shops; awaiting Google Cloud API approval for Play Store release.
- Engineered zero-hosting-fee POS with cash + GCash QR checkout, inventory, kitchen queue, and 3 sync tiers (Local, Remote Monitoring, Multi-Device) to Google Spreadsheet.

Founder & Full-Stack Engineer | Moto Factory — motofactory.store

Jun 2025 – Present

Live motorcycle parts e-commerce for riders across the Philippines.

- Solo engineer in CDO business venture; owns architecture, development, deployment, and admin for a **60+ product** catalog with checkout, order tracking, and buyer accounts.
- Integrated PayMongo payments: QRPh, GCash, Maya, and COD; full storefront live since June 2025.

PROFESSIONAL EXPERIENCE

React.js / React Native Developer | Arizto Real Estate (ShoreAgents Inc.)

Feb 2024 – Present

- Shipped mobile leaderboard, iOS Widgets (SwiftUI + live React Native state sync), and 8+ web dashboard features including sole agreement generator, sales/purchase checklists, and history table revamp for **NZ agents and admins**.
- Led App v2 dependency upgrade and triaged production crashes/issues via Sentry for users in New Zealand.

Full-Stack Developer | Zylun Philippines / CoDev (Sureel AI & Digital Champs)

May 2024 – Aug 2025

- Digital Champs: rewrote entire class-based React codebase to Next.js (hooks, Redux, components) after legacy code was incompatible with modern Next.js.
- Sureel AI: built Fastify REST endpoints and payload schemas for new FE features; full-stack ownership with PO-approved architecture decisions.

Full-Stack Developer / Tech Lead | Hatchit Solutions

Mar 2022 – Feb 2024

- Tech lead on MLhuillier POS/QCL/BCA: architected Next.js + TypeScript + Sequelize template scaling to **2,000+ branches**, aligned with client IT infrastructure.
- Delivered Jewellery site design revamp in under 1 week; built SurgeTech React Native app from scratch and guided junior developers across multiple client projects.

Full-Stack Developer (Part-time, 4 hrs/day) | OpenGov Asia

Jul 2022 – Feb 2023

- Built internal Leave Management System used by **20 staff**; deployed on Azure stack.
- Consulted on BlueArt UI design/planning and led UI enhancements and QA support.

EDUCATION

B.S. Information Technology — Xavier University – Ateneo de Cagayan (2018 – 2023) | **ICT** — Liceo de Cagayan University (2016 – 2018) | **NCII Computer Servicing** — Technical Education and Skills Development Authority (TESDA)
